DETAILED ACTION

The Amendment filed December 19, 2005 has been entered and considered. In view thereof, the rejections of the claims as being obvious over Davis (US 4,347,492) and combinations involving Davis are withdrawn.

6

Allowable Subject Matter

Claims 1-31, 33, 34 and 36 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-27 and 36, they are allowable in view of
12 the amendments made to the claim 1.

Regarding the remaining claims, they are allowed for those reasons contained in the Office Action mailed October 5, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
18 fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 2862

Claim 35 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tsuboi (US 6,573,686) in view of ordinary skill in the art. Tsuboi teaches an array of displacement sensors providing displacement measurements (See FIG. 10). However, while Tsuboi does teach the sensors being electric micrometers, it does not explicitly teach any specific spacing between sensors. Nonetheless, modifying Tsuboi to have the relative dimensions as recited in the claims would be obvious to one having ordinary skill in the art through routine experimentation because where the where the only difference between the prior art and the claims was a recitation of relative dimensions of the claimed device and a device having the claimed relative dimensions would not perform differently than the prior art device, the claimed device is not patentably distinct from the prior art device. See *Gardner v. TEC Systems, Inc.*, 220 USPQ 777 (Fed. Cir. 1984), *cert. denied*, 225 USPQ 232 (1984).

18

Response to Arguments

Applicant's arguments filed December 19, 2005 have been fully considered and they are persuasive in part. Accordingly, claims 1-31, 33, 34 and 36 are now indicated as allowed.

Art Unit: 2862

However, with regard to claim 35, the arguments are not persuasive and the rejection stands.

Regarding claim 35, Applicant asserts that Tsuboi does not provide an enabling disclosure to teach the claims. However, the test of obviousness is what the teachings of the references would have suggested to those of ordinary skill in the art (See *In re Keller*, 642 F.2d 413, 425, 208 USPQ 871, 881 (CCPA 1981)), it is not whether each reference enables its modification or the combination.

Tsuboi teaches of an array of electric micrometers, but does explicitly not provide any information on the precise spacings between them. The *Gardner* case above teaches it is merely routine skill in the art to make an apparatus to certain dimensions. It would thus be obvious routine skill in the art to simply make the device of Tsuboi to the dimensions cited in the claim in order to make the apparatus more compact.

In order to overcome the rejection, the claims must recite some features, other than the dimensions themselves, that distinguish the claims from the prior art device, or the Applicant must show that the prior art device with the recited dimensions would perform differently than the claimed device. Because Applicant has not identified any claim features or

Art Unit: 2862

provided any evidence of differing performance, the rejection stands.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the
6 extension of time policy as set forth in 37 CFR 1.136(a).

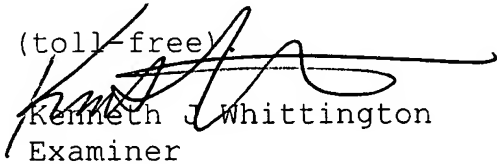

A shortened statutory period for reply to this final action
is set to expire THREE MONTHS from the mailing date of this
action. In the event a first reply is filed within TWO MONTHS
of the mailing date of this final action and the advisory action
is not mailed until after the end of the THREE-MONTH shortened
12 statutory period, then the shortened statutory period will
expire on the date the advisory action is mailed, and any
extension fee pursuant to 37 CFR 1.136(a) will be calculated
from the mailing date of the advisory action. In no event,
however, will the statutory period for reply expire later than
SIX MONTHS from the mailing date of this final action.
